

Playwright Test Documentation - SauceDemo

1. Project Overview

This document contains automated test cases implemented using Playwright for the SauceDemo web application (<https://www.saucedemo.com/>). It includes functional test scenarios such as login, product selection, cart operations, and checkout process.

2. Test Environment Setup

Tools: Playwright, Node.js

Browser: Chromium / Chrome

Test Site: <https://www.saucedemo.com/>

3. Test Cases

TC-01: Valid Login

Verify that a user can log in using valid credentials.

Steps:

1. Open site
2. Enter username: standard_user
3. Enter password: secret_sauce
4. Click login

Expected: User is redirected to inventory page

Test Steps		
Q Filter steps		
> ✓ Before Hooks		614ms
> ✓ Navigate to "/" — record2_demo.spec.js:4		1.1s
> ✓ Click locator("[data-test='username']") — record2_demo.spec.js:5		91ms
> ✓ Fill "standard" locator("[data-test='username']") — record2_demo.spec.js:6		18ms
> ✓ Press "CapsLock" locator("[data-test='username']") — record2_demo.spec.js:7		17ms
> ✓ Press "CapsLock" locator("[data-test='username']") — record2_demo.spec.js:8		16ms
> ✓ Fill "standard_user" locator("[data-test='username']") — record2_demo.spec.js:9		15ms
> ✓ Press "Tab" locator("[data-test='username']") — record2_demo.spec.js:10		16ms
> ✓ Fill "secret_sauce" locator("[data-test='password']") — record2_demo.spec.js:11		15ms
> ✓ Press "Enter" locator("[data-test='password']") — record2_demo.spec.js:12		69ms

TC-02: Invalid Login

Verify login fails with incorrect credentials.

Steps:

1. Enter invalid username/password
2. Click login

Expected: Error message displayed

TC-03: Verify Login Button Functionality

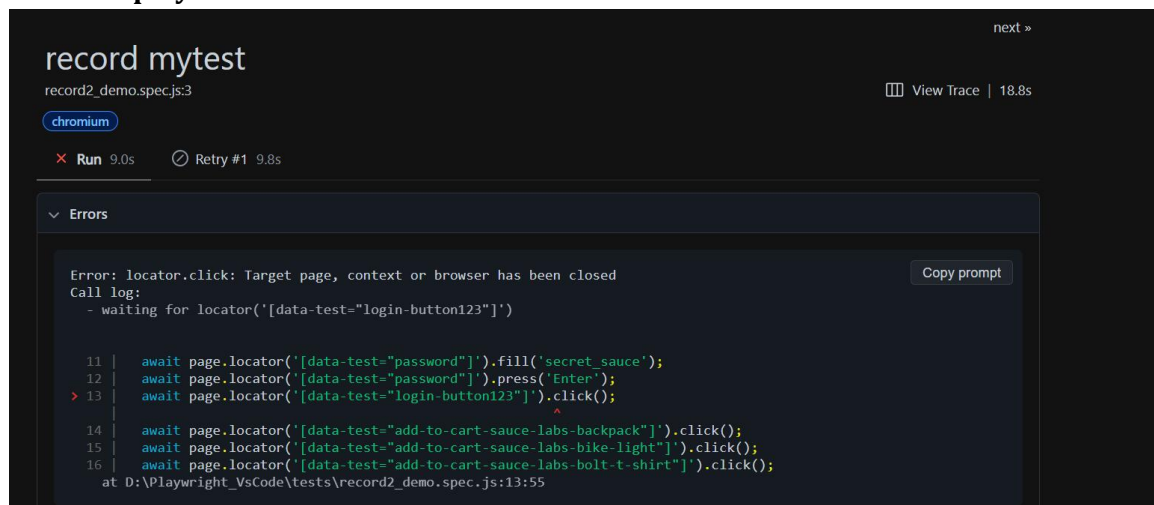

Login Button Click Verification

Steps:

1. Navigate to the login page
2. Click the **Login** button (data-test="login-button")

Expected: Login to landing page

Error Displayed:

Login button

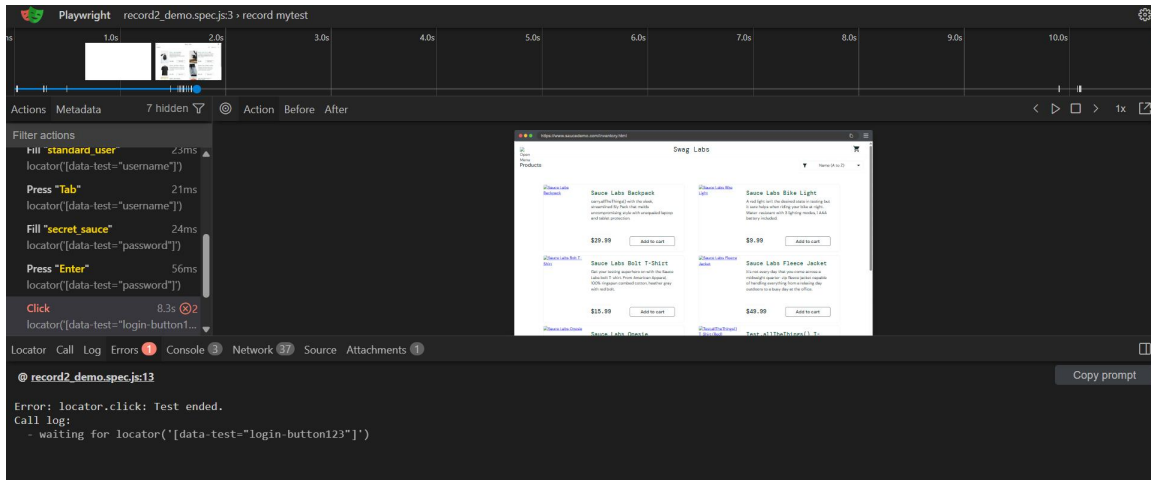

error:

Traces:

TC-04: Add Item to Cart

Verify user can add a product to cart.

Steps:

1. Login
2. Click 'Add to cart' on a product

Expected: Cart badge increases

TC-05: Remove Item from Cart

Verify user can remove item from cart.

Steps:

1. Add item to cart
2. Click remove

Expected: Cart is empty

TC-06: Checkout Process

Verify user can complete checkout.

Steps:

1. Add item to cart
2. Go to cart
3. Click checkout
4. Enter user details
5. Finish order

Expected: Order confirmation page

4. Sample Playwright Test Code

```
import { test, expect } from '@playwright/test';

test('Login test - SauceDemo', async ({ page }) => {
  await page.goto('https://www.saucedemo.com/');
  await page.fill('#user-name', 'standard_user');
  await page.fill('#password', 'secret_sauce');
  await page.click('#login-button');
  await expect(page).toHaveURL(/inventory/);
});

test('Add to cart test', async ({ page }) => {
  await page.goto('https://www.saucedemo.com/');
  await page.fill('#user-name', 'standard_user');
  await page.fill('#password', 'secret_sauce');
  await page.click('#login-button');

  await page.click('button[data-test="add-to-cart-sauce-labs-backpack"]');
  await expect(page.locator('.shopping_cart_badge')).toHaveText('1');
});
```

5. Conclusion

This Playwright test suite ensures core functionality of SauceDemo is working correctly. It can be expanded with additional edge cases and integrated into CI/CD pipelines.
